INFORMED CONSENT

(Please Read Carefully Before Signing.)

As will all things physical, when you engage in the treatment of soft (muscles, ligaments, etc.) and osseous (bone) tissues, there are risks in making changes to those tissues since they have been in a state of dysfunction for an undetermined amount of time. At Arbor Creek Health & Wellness, aka. Arbor Creek Chiropractic, we strive to provide the greatest physical health care available. Our methods and techniques allow us greater flexibility in our treatments and minimize the risks that can be found in traditional healthcare facilities. However, there are always risks in any treatment you decide to receive. This document outlines the possible risks of the type of care that we provide in this office. Please read all the information in this document before signing and accepting care.

• The chiropractic adjustment:

The doctor will use his hands or a mechanical adjusting instrument, upon your body, in such a way, as to move your joints when necessary. This may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may also feel or sense a movement of the joint. It is not uncommon to feel some stiffness and/or soreness in the adjusted areas following the first few days of treatment.

• The material risks inherent in chiropractic adjustment:

There are certain complications which may arise during chiropractic manipulation. Those complications include: fractures, disc injuries, dislocations, muscle strain, diaphragmatic paralysis, cervical myelopathy, costovertebral strains and/or separations and/or rib fractures. In rare instances, some types of manipulation of the neck have been associated with injuries to the arteries (known as vertebral artery dissection) in the neck leading to or contributing to serious health complications including (but not limited to) stroke.

• The probability of risks occurring:

Receiving a fracture from treatment is an extremely rare occurrence and generally results from some underlying pathological weakness of the bones. The different causes of stroke have been the subject of tremendous disagreement within the medical community for decades. One prominent authority claims that there is at most a one-in-a-million chance of such an outcome while utilizing the chiropractic adjustment in the cervical spine. As a policy, to reduce your risk, we employ tests in our examination which are designed to identify if you may be susceptible to that kind of injury. The possibility of having the other complications that are list above in the *material risks section* also generally described as occurring "rarely."

• Ancillary (Modality) treatments:

In addition to chiropractic adjustments, we use the following treatments which have been listed with their known risks:

- *Needle acupuncture* infection is rare but possible. We use single use, sterile needles to reduce this risk.
- *Electrical stimulation* Skin burns and soft tissue irritation.
- Infrared heat (moxa) therapy Skin burns.
- *Physiotherapy* Used to rehabilitate fascia, muscles, ligaments and nerves. Possible side effects are:
 - Muscle strain and/or reinjury of presented complaint(s)
 - o Ligamentous strain, sprain or reinjury
 - Possible reinjury of presented complaint(s)
- Manual therapy Used to release muscle tension, skeletal subluxation and toxic metabolites. This can cause
 muscle stiffness and aches as well as headaches and/or bruising of the soft tissues. Drinking plenty of water
 should aid in a quick recovery if these symptoms arise.
- *Neuromuscular Therapy* Findings are similar to Manual Therapy.

• The availability and nature of other treatment options:

Other treatment options for your condition include:

- Self-administered, over-the-counter analgesics and rest or exercise, etc.
- Prescription drugs such as anti-inflammatory, muscle relaxants and painkillers recommended and provided by your MD.
- Surgery

• The material risks inherent in such options and the probability of such risks occurring include:

- Overuse of over-the-counter medications can produce undesirable side effects. If complete recovery is impractical, premature return to work and household chores may aggravate the condition and extend the recovery time. The probability of such complications arising is dependent upon the patient's general health, severity of the patient's discomfort, his pain tolerance and self-discipline in not abusing the medicine. Available (online) literature describes the highly undesirable effects from long term use of over-the-counter medicines.
- Prescription muscle relaxants and painkillers can produce undesirable side effects and patient dependence. The
 risk of such complications arising is dependent upon the patient's general health, severity of the patient's
 discomfort, his pain tolerance, self-discipline in not abusing the medicine and proper professional supervision.
 Such medications generally entail very significant risks some with rather high probabilities.
- Hospitalization in conjunction with other care bears the additional risk of exposure to communicable disease, iatrogenic (doctor induced) mishap and expense. The probability of iatrogenic mishap is remote, expense is certain; exposure to communicable disease is likely with adverse result from such exposure dependent upon unknown variables.
- The risks inherent in surgery include adverse reaction to anesthesia, iatrogenic (doctor induced) mishap, all those of hospitalization and an extended convalescent period. The probability of those risks occurring varies according to many factors. Additionally, there is no guarantee of outcome with surgery.

• The risks and dangers attendant to remaining untreated:

Remaining untreated allows the formation of adhesions, a continual increase of soft tissue inflammation and reduces mobility which sets up a pain reaction further reducing mobility. Over time, this process may complicate treatment making it more difficult to treat and less effective the longer it is postponed. The probability that non-treatment will complicate a later rehabilitation is very high.

• Treatment Outcome Possibilities:

The treatments provided in this clinic have proven to be effective in relieving a variety of illnesses and health problems. The outcome of treatments provided have the following possibilities: *the symptoms or illness you have sought care for may improve, may remain unchanged, or have the possibility of getting worse.* We strive to ensure that your care is complete and that you will be satisfied with your outcome.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE INFORMATION PRESENTED ABOVE.

By signing this informed consent, you agree that you have read ALL (in its entirety) or that someone has read to you ALL (in its entirety) the above explanation(s) of the nature of any treatments provided and possible risks with undergoing and/or receiving chiropractic treatment and modality treatments. By signing below, you are stating that you also understand the inherent risks of refusing chiropractic treatment and modality treatments provided by the staff and/or business entities which operate in the office of the Arbor Creek Health & Wellness, aka. Arbor Creek Chiropractic.

By signing below, I state that I have weighed the risks involved in undergoing and/or receiving treatment and assume the risk in receiving any and all chiropractic treatment and/or all modality therapies and I have decided it is in my best interest to undergo and/or receive any and/or all said treatment as well as any or all other treatments and services offered and provided by the staff and or business entities which operate in the office of the Arbor Creek Health & Wellness, aka. Arbor Creek Chiropractic.

Having been informed of the risks, I hereby give my consent and assume any and/or all the risks of receiving any and/or all treatment deemed necessary the staff and or business entities which operate in the office of the Arbor Creek Health & Wellness, aka. Arbor Creek Chiropractic for any reason. I understand that if I have any questions regarding treatment and/or services, I may ask the doctor and/or staff at any time for an explanation for reasons and purposes of treatment or services provided.

Financial Policy & Assignment of Benefits

The following form represents our financial policy. You are required to read and sign this agreement prior to receiving any treatment and/or services. You will not be admitted for care without it.

Financial Policy: PLEASE READ CAREFULLY (before signing)

Some (and/or perhaps all) of the services provided in our office may (or can) be considered, by your insurance provider, as non-covered (or non-essential) services and may not be considered "reasonable and/or necessary". Your insurance policy is a contract between you and your insurance company. We bill them for services provided. They remit or deny payment based on the provisions in that contract. There is never any guaranty of payment

provided by your insurance carrier. It is your responsibility to pay for any deductible amount, co-insurance, co-pay, or any other balance not paid or covered by

your insurance. You are financially responsible for all charges for services rendered regardless of any applicable insurance or benefit payments. We will bill you for these charges and if not paid will be sent to a collections recovery agency or law firm.

Insurance does NOT cover maintenance care and/or nutritional supplements. Maintenance care is considered medically unnecessary by all insurance companies. Federal plans (Medicare and Medicaid) explicitly exclude maintenance-type care from coverage. Therefore, you are responsible for all charges incurred for maintenance care.

Participating Insurance Plans:

Please note that most insurance plans have a deductible. YOU MUST PAY THE FULL DEDUCTIBLE BEFORE THE INSURANCE WILL PAY THE COST OF YOUR CARE. This is not negotiable.

For those plans with which we are participating providers, it is our policy to collect all co-pays, co-insurance or any deductibles that are due at the time of service. In order to properly bill your insurance company and avoid untimely delays, we require that you provide us with accurate insurance information and allow us to maintain a copy of your insurance card and driver's license on file. In the event that your insurance coverage changes to a plan with which we do not participate, refer to the paragraph below for information regarding coverage. For minors, the adult accompanying a minor and the parent (or guardian(s) of the minor) are considered guarantors for the minor's account. For an unaccompanied minor; by law, all care will be denied unless the office or provider has been pre-authorized to treat and therefore charge for treatment with an approved credit plan or insurance plan.

Non-Participating Insurance Plans:

We do not accept assignment (payment) of insurance benefits, nor bill your insurance company if we are not a participating provider. Full payment (at the Self-Pay rate) is expected at time of service. If you want to use your insurance, and if we are not providers with that insurance carrier, we suggest you find a provider in your network. *Review the next page for the Fee Schedule for Self-Pay Patients*.

Assignment of Benefits:

Authorization to Pay Benefits to Physician/Office (Statement):

I hereby assign payment directly to the Office for any and all procedures and treatments provided, if any, otherwise payable to me for services provided at the Office, but not to exceed the indebtedness to the Office for those services. *I understand that I am financially responsible for charges not covered by my insurance.*

CONFIDENTIAL Page 2 of 2

Authorization to Release Information (Statement):

I hereby authorize the Office to release any information acquired in the course of my examination and/or treatment(s) to my referring practitioner and/or my insurance company.

Acknowledgement of Financial Policy and Assignment of Benefits (Statement):

I have read and understand and agree to comply with the above Financial Policy and Assignment of Benefits provisions and agree to all provisions outlined therein.

Fee Schedule for Self-Pay Patients:

This is the fee structure for Self-pay and/or Non-insured patients and/or patients with whom the doctor(s) will not accept assignment. You must confirm with your individual practitioner which insurance plans he participates with. If he is not in-network with your insurance carrier he will not accept insurance coverage from your insurance carrier. Self-pay (time-of-service) visits are billed primarily by time but also by services provided. Fees are listed as follows:

Service (time-of-service rates only)*	Time allotted	Discount fees	Regular fees
First exam (only)	1-30 minutes	\$120	\$125-280
First exam + first treatment	1-60 minutes	\$165	\$180-320
Bundled (all) services (with or without chiropractic)	1-20 minutes	\$75	\$120
Bundled (all) services (with or without chiropractic)	21-30 minutes	\$100	\$135-200
Bundled (all) services (with or without chiropractic)	31-40 minutes	\$140	\$210-285
Bundled (all) services (with or without chiropractic)	41-60 minutes	\$200	\$285-395
Chiropractic (adjustment) only	1-10 minutes	\$50	\$75

Acknowledgement of Financial Policy for Self-Pay and non-insured patients (Statement):

I have read and understand and agree to comply with the Financial Policy as stated in this document. Additionally, I hereby declare that I am unable to pay for the standard service fees at Arbor Creek Health & Wellness (i.e. Tim Bhakta, P.A., aka. Arbor Creek Chiropractic.) and/or waive the right to use insurance for any and all services rendered as they may or may not be covered by my insurance carrier, regardless of whether the service(s) rendered and office staff and facility are listed as providers in any or all insurance networks. I agree to pay for all services as listed in the Fee Schedule for Self-pay Patients section of the Financial Policy. I understand that additional costs may/will apply for unrelated charges of the fee schedule. I acknowledge that the fee schedule can change without notice and new fees will apply with or without being provided with notice of changes.

(Arbor Creek Health & Wellness, Tim Bahkta, PA, aka Arbor Creek Chiropractic)

24 Hour Cancellation & "No Show" Fee Policy

Each time a patient misses an appointment without providing proper notice (24-hours advanced notice), another patient is prevented from receiving care. Therefore, Arbor Creek Health & Wellness, Tim Bhakta, PA (AKA Arbor Creek Chiropractic) reserve the right to charge a fee of \$70.00 for all missed appointments ("no shows") regardless of reason, and appointments which are not cancelled with a 24-hour advance notice.

"No Show" fees will be billed to the patient or guardian of the patient. This fee is NOT covered by insurance, and must be paid on the day of or prior to your next appointment. Multiple "no shows" in any 12 month period may result in termination from either practice. Thank you for your understanding and cooperation as we strive to serve the needs of all of our patients.

Release from Care Assumption (If the Fee is not Paid):

As per the "No Show" policy; if the fee is not paid within 60 days of this notice, it is assumed that there is no intention, desire, or will, on the part of the patient, to remit the required fee. It is also assumed that the patient *does* have the intention, desire and will to be released from any and all future care. This will mean that the patient will not be able to make/schedule any new/future appointments and the patient will be permanently released from care. Please be advised that promissory notes, notes payable, IOU's, or any other negotiable instruments will not be accepted in lieu of fee payment.

By signing below, you acknowledge that you have received this notice and understand this policy.

HIPPA PRIVACY NOTIFICATION & PRACTICE REQUIREMENTS

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This Notice of Privacy Practices describes how we may use and disclose your protected health information (PHI) to carry out treatment, payment or health care operations (TPO) and for other purposes that are permitted or required by law. It also describes your rights to access and control your PHI. "Protected Health Information" is information about you, including demographic information, that may identify you and that relates to your past, present or future physical health or mental health or condition, and related health care services.

Uses and Disclosures of Protected Health Information

Your PHI may be used and disclosed by your physician, our office staff, and others outside of our office that are involved in your care and treatment for the purposes of providing health care services to you, pay your health care bills, to support the operation of the physician's practice, and any other use required by law.

Treatment

We will use and disclose your PHI to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third-party. For example, we would disclose your PHI, as necessary, to a home health agency that provides care to you. For example, your PHI may be provided to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

Payment

Your PHI will be used, as needed, to obtain payment for your health care services. For example, obtaining approval for a hospital stay may require that your relevant PHI be disclosed to the health plan to obtain prior approval for the hospital admission.

Healthcare Operations

We may use or disclose, as needed, your PHI in order to support the business activities of your physician's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, training of medical students, licensing, and conducting or arranging for other business activities. For example, we may disclose your PHI to medical school students that see patients at our office. In addition, we may use a sign-in sheet at the registration desk where you will be asked to

sign your name and indicate your physician. We may also call you by name in the waiting room when your physician in ready to see you. We may use or disclose your PHI as necessary to contact you to remind you of your appointment.

We may use or disclose your PHI in the following situation without your authorization. These situations include: as Required by Law, Public Health issues as required by law, Communicable Diseases: Health Oversight, Abuse or Neglect, Food and Drug Administration requirements, Legal Proceedings, Law Enforcement, Coroner, Funeral Directors, and Organ Donation, Research, Criminal Activity, Military Activity and National Security, Workers' Compensation, Inmates, Required Uses and Disclosures, Under the law, we must make disclosures to you and when required by the Secretary of the Department of Health and Human Services to investigate or determine our compliance with the requirements of Section 164.500. Other Permitted and Required Uses and Disclosures Will Be Made Only With Your Consent, Authorization, or Opportunity to Object unless required by law.

You may revoke this authorization, at any time, in writing, except to the extent that your physician or the physician's practice has taken an action in reliance on the use or disclosure indicated in the authorization.

Your Rights. Following is a statement of your rights with respect to your PHI.

<u>You have the right to inspect and copy your PHI</u>. Under Federal law, however, you may not inspect or copy the following records: psychotherapy notes; information compiled in reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and PHI that is subject to law that prohibits access to PHI.

You have the right to request a restriction on your PHI. This means you may ask us not to use or disclose any part of your PHI for the purposes of treatment, payment, or healthcare operations. You may also request that any part of your PHI not be disclosed to family members or friends who may be involved in your dare or for notification purposes as described in this Notice of Privacy Practices. Your request must state the specific restriction requested and to whom you want the restriction to apply. Your physician is not required to agree to a restriction that you may request. If the physician believes it is in your best interest to permit use and disclosure of your PHI, your PHI will not be restricted. You then have the right to use another Healthcare Professional.

You have the right to request to receive confidential communications from us by alternative means or at an alternative location. You have the right to obtain a paper

copy of this Notice from us, upon request, even if you have agreed to accept this Notice alternatively i.e. electronically.

You may have the right to have your physician amend your PHI. If we deny your request for amendment, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal.

You have the right to receive an accounting of certain disclosures we have made, if any, of your PHI. We reserve the right to change the terms of this Notice and will inform you by mail of any changes. You then have the right to object or withdraw as provided in this Notice.

Complaints. You may complain to us or the Secretary of Health and Human Services if you believe your privacy rights have been violated by us. You may file a complaint with us by notifying our privacy contact of your complaint. We will not retaliate against you for filing a complaint.

This Notice was published and becomes effective on/before April 1, 2019.

We are required by law to maintain the privacy of, and provide individuals with, this Notice of our legal duties and privacy practices with respect to PHI. If you have any objections to this form, please ask to speak with our HIPPA Compliance Officer in person or by phone at our main phone number.

Clicking "Agree" below is only acknowledgment that you have received this Notice of our Privacy Practices.

PATIENT ACKNOWLEDGEMENT:
